WHAT IS WEECS?

WEECS, or Women in Electrical Engineering and Computer Science, is a non-profit student organization aiming to provide resources for women pursuing careers in the electrical engineering and computer science fields. We organize workshops, events, and resources to elevate our member's technical experiences and skill sets to prepare them for complex challenges they may encounter in the real world. We also recognize the value of an inclusive environment during the learning process, and prioritize building a safe space and encouraging community around everything we give to our members.

1st GBM of the Spring 2024

Last GBM of the Spring 2025

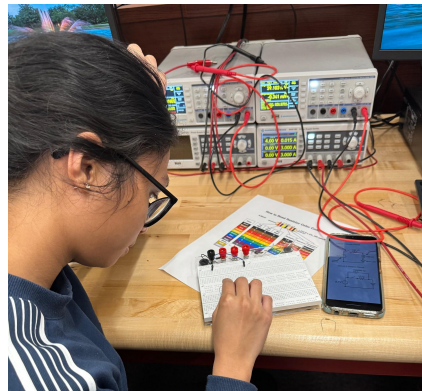

WHY SPONSOR US?

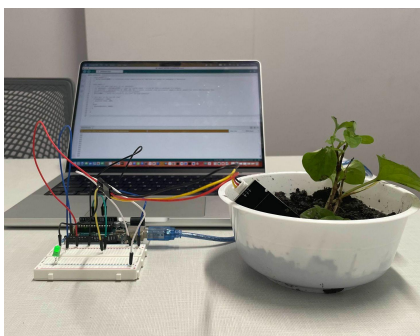

We only want to provide our members with the best and most hands-on experiences, from building their own PCBs projects with quality materials to having the best instructors to lead software workshops. However, WEECS is also only a newly revived organization, being only active since January 2023. Our visions and goals can sometimes be limited to our resources, especially with our growing membership, which is now well over 200. That's why as a sponsor, not only will you enjoy a buffet of benefits, but you will be investing in the young minds of technology's tomorrow. Each of our members have talent and potential they exercise in their coursework and extracurriculars, and we want to provide as many opportunities as possible to explore their interests and talent.

Instructing a full stack workshop

Circuitry basics workshop

Automatic Plant Watering System workshop

Microphone Sound Sensor with Arduino workshop

SPONSORSHIP OPTIONS

| Sponsorship | Bronze | Silver | Gold | Platinum |
|-------------------------------|--------|--------|--------|----------------------|
| Financial Contribution | | | | |
| Donation Amount | \$500 | \$1000 | \$2000 | \$3000 |
| Direct Involvement | | | | |
| Number of Involved Events | 2 | 3 | 5 | Priority involvement |

SPONSORSHIP METHODS

We understand that not all sponsors lend their support the same way. That's why we created two separate methods to achieve the Bronze, Silver, and Gold statuses. The first is strictly financial contributions and the second is direct involvement. Only one of these methods are necessary to acquire their respective tiers. For example, a sponsor who have contributed \$1000 will not need to be involved with three events to qualify for the Silver tier. Platinum status is only available through financial donations. If you would like to contribute through multiple ways or a way that is not discussed above, you can reach out to the contact email provided for further discussion, as a tier promotion is possible.

- **Financial Contributions:** Contributions and donations goes to technical workshops, educational materials, social/outreach events, and student resources.
- **Involved Events:** Sponsors will play a leading role in events such as instructing a workshop or reviewing resumes during internship preparations. The number of events will be distributed throughout either the current or next academic year.

SPONSORSHIP BENEFITS

| Benefits | Bronze | Silver | Gold | Platinum |
|-------------------------------------|--------|--------|------|----------|
| Social Media Post | X | X | X | X |
| Logo on Website | X | X | X | X |
